SKILLS & CERTIFICATIONS

- **Technical:** AWS, Python, SASE, SD-WAN, REST APIs, Cisco Meraki, MPLS, Cloud-Edge Connectivity
- **Certifications:** Zscaler Certified Sales Engineer, Adtran Certified, Zscaler Zero Trust Cyber Associate, IBM Cloud Computing Fundamentals, IBM Cybersecurity Fundamentals, IBM AI Fundamentals
- **Eagle Scout:** Fundraised and completed 200+ hour project for a local museum.
- **Interests:** playing soccer, pickleball, hiking, milk tea, volunteering, spending time with my cat

WORK EXPERIENCE

Lumen Technologies | Solutions Engineer | Remote — Jul 2023 – Present

- Partner with sales teams to design and propose SASE, SD-WAN, NaaS, and cloud connectivity (AWS/Azure) solutions tailored to AI data center and security requirements contributing to 10% quarterly revenue growth.
- Facilitate 10+ quarterly discovery sessions, technical deep dives, and proof of concepts for UCaaS/SD-WAN and Zero Trust security architectures supporting a 40% conversion rate into enterprise deployments.
- Support 10+ accounts in migrating legacy MPLS environments to SD-WAN and NaaS architectures, reducing client operational costs by 18% while improving SLA compliance.
- Bridge sales and engineering teams during pre-sales cycles, translating SD-WAN and cloud requirements into client-ready proposals for 15+ mid-market accounts.

USAA | Product Manager Intern | San Antonio, TX — Jun 2022 – Aug 2022

- Spearheaded the development of an Android app feature that enabled employees to create system notifications, driving a 15% increase in user engagement and improved app communication effectiveness.
- Collaborated with developers and designers to align in-app learning content with product updates, ensuring seamless user experiences and reducing feature-related support tickets by 12% post-launch.

Microsoft | Explorer Intern | Remote — May 2021 – Aug 2021

- Partnered with software engineers to design and implement tooling that captured real-time telemetry from Azure Virtual Machine (VM) deployments, improving visibility into deployment performance.
- Developed a C# algorithm to intelligently prioritize deployment tasks, reducing VM provisioning time by 15–20% and increasing reliability of the deployment pipeline.

Google | STEP Intern| Remote — May 2020 – Aug 2020

- Developed & launched an MVP of a web platform that focused on connecting students with tech professionals using HTML/CSS, Typescript, and Java Servlets 4 weeks ahead of schedule for the product launch.
- Led usability testing with 20+ users, identified 8+ UX pain points and implemented and improved the task success rate by 40% in post-test evaluations.

EDUCATION

California State University, Fullerton — Fullerton, CA

Bachelor's of Science in Computer Science — Aug 2019 - May 2023

- Honors: *magna cum laude*; 3.7/4.0 GPA
- **Recent Courses**: Data Structures, Algorithm Engineering, Computer Networking, Data Science, Statistics
